

To the Honorable Senate and House of Representatives in Congress assembled:

The undersigned citizens of the State of Illinois, respectfully request Congress to establish by law a TARIFF of duties, so as to prevent excessive importations of goods, and excessive exportations of specie; to create a Home market for agricultural productions; a Home demand for the skill and industry of our people; to raise revenue enough to relieve the nation from debt and to support the government, and so to foster our manufactures as to make our nation PROSPEROUS in Peace and INDEPENDENT in War.
