

To the Senate & House of Representatives of the United States of America - in Congress assembled.

The petition of the undersigned citizens of Jasper & Butts Counties, Georgia, respectfully sheweth that There is great want of mail facilities at Seven Islands, on the Ocmulgee River, & in that vicinity - there being no post-office nearer than the Indian Springs - distant seven miles west and Monticello - Ten miles East - That there is located at Seven Islands - a large Cotton manufactory - which is daily growing in importance - That the population at Seven Islands numbers about Two hundred persons - & the surrounding Country is densely populated - That within a mile are extensive Flouring mills - We therefore request that the mail route from Madison, on the Georgia Rail-road to Monticello - may be extended to Griffin, on the Macon Western Rail-road, via, Seven Islands, Indian Springs, Jackson &c. to run through three times a week - and back - so as to give three mails a week from Madison - and the same number from the City of Griffin - we suggest that the mail be conveyed in two-horse hacks - and we solicit the establishment of a post-office at Seven Islands - to be known by that name - And your petitioners will ever pray &c.
