

To the Honorable the Senate and House
of Representatives of the United States

Your Petitioners would respectfully represent
that the Convenience of the Public would be much
promoted by a daily Mail between Ithaca in Tompkins
County and Bath in Steuben Co in the State of New York
passing through Trumans Mills Cayutaville in Tomp-
kins Co Utopia Havana and Townsend's Settlement
in Chemung Co and Monterey in Steuben Co

The above named villages are rapidly increas-
ing in population and wealth and already a vast
amount of business is daily transacted in them and the
Community suffer great inconvenience from the sparseness
and infrequency of the Mails

Your Petitioners would further represent the
route above designated is decidedly the most level
direct and shortest being about 50 miles that can be found
between the above named places and that the roads are
in a sufficient improved state for the Transmission
of the Mails in Post Coaches

and also that a daily Mail in Stages would not
only increase business facilities but greatly add to the
revenue of the Post Office Department

We therefore pray that Congress will pass
a Law authorizing the above named route as it
is demanded by the interest of this Community and
the People generally
