

Cheey August 8/56

Sir
I have just returned
from Iowa, & spoke
with Brewster at
Burlington. And, in
looking over the papers,
I came across the
enclosed letter from
George Law, which
I enclose to you & hope
you will get inserted
in as many Southern
papers in this State
as you can.

The Journal,

September 2/22

The three first volumes
from Jones & White
with drawing of

Geological. Vol. 1, in

looking over the paper,

I have a copy of the

referred letter from

George Jones, which

I enclose to you also

you will get interest

in a copy of them

papers in that state

as regards the drawings

as regards the drawings

at Springfield should
insist it by all means.

It leaves but
little of Filmore.

Go South & keep
South. Our north
is all right.

For St Governor, we
have no man in view.
But we shall insist
on a man who has
not been in the
Legislature. We want
no old records mounted
up against us.
